Reasons for Allowance

1. The following is an examiner's statement of reasons for allowance: None of the prior art of record anticipates or renders obvious the invention as set forth in claim 28. Specifically, the patent to Inagaki (US 4,679,724) discloses a container tube forming a substrate layer which is wrapped on the inside and outside with shrink film which is subsequently heated to shrink the film tight around the substrate and adheres the shrink film to the inside and outside of the substrate layer. However, the construction of Inagaki at the time the shrink film is adhered to the substrate is not a blank and the shrink film after being adhered is incapable of shrinking away from the substrate layer as required by the claim since the shrink film is heated and adhered around the entire tube.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
